# POWELL®

***Powell Decks*** *are constructed from 7 plys of hard rock maple, AirLam™ fused with waterproof Type I glue, and sealed against moisture with a water base acrylic semi-gloss finish. Sublimated graphic decks are coated with our SST™ slide treatment for longer slides. Silk-screened decks are top coated with a final clear coat to add additional protection to the multi-layer ink coating. Powell decks are warranteed against delamination for the useful life of the deck.*

***Brite-Lite Construction*** *A deck is made lighter by either using a lighter material or using less material (as in thinner). Lighter woods don't last as long as hard rock maple, and just making a deck thinner can make it both too flexy and weaker. Increasing the concave of the deck, however, makes the deck stiffer and increases its pop. By using K-12s extra stiffness to offset a 5% reduction in the total thickness of Brite-Lite decks, we have been able to shave a few more ounces off an already light deck, which also increases its pop.*

***Tough-Ply Construction*** *is a slightly thicker deck that resists breakage a bit more than our Brite-Lites. If you're going to jump off a building it's better to do it on a Powell Tough-Ply deck.*

***Powell Old School Decks*** *With the construction of so many new skate parks in recent years, there has been a growing demand for old school shapes and graphics. We offer these six decks to give the mature skater some choices he can relate to. Although the graphics may come from yester-year, these decks are no wallhangers. All Powell Old School decks are made using our contemporary K-10 mold to be fully functional assault weapons.*

***Special application wheels*** *At Powell we believe there is more than one type of skateboarding, and our wheel line reflects this. Our Softie Series wheels are conventional street shapes poured in a softer durometer. These are ideal for beginners and skaters dealing with rougher terrain. Check out the new Bowl Bombers, an old school approach to pool and vert situations. For the more contemporary bowl skater, we have Bowlriders, great for the skatepark! Our Wings Cruiser line is great for longboarding, and the smaller Bat Wings cruiser is perfect for slalom or filmer board set-ups. Powell makes wheels for every type of skateboarding, period.*

# MINI•LOGO™ DECKS

**Mini•Logo Decks** are manufactured from the same raw materials and in the same unique "AirLam" presses as our top of the line Powell decks. The only difference is the graphics. We offer the most popular shapes and concaves at a fraction of the price with a life-long warranty. Mini•Logo decks are truly "the best for less." Sold in assorted colors.

**K-7 Concave:** Mild, smooth concave. Mellow nose and tail.
**K-8 Concave:** Medium concave. Steeper nose and tail.
**K-11 Concave:** Deep concave. Steep nose and tail.
**Ki11 Concave:** Deep concave. Flat nose and tail.
**K-12 Concave:** Deepest concave. Steep flat nose and tail.
**K-12s Concave:** Deepest concave. Steep flat nose and tail & short wheelbase for smaller skaters.

# SUPERLIGHT™ DECKS

**MiniLogo SuperLight™Decks** are thinner and lighter than our regular MiniLogo decks with a deep K-12 concave to keep them stiff and strong. The bottom is coated with a full length solid ink color in red, black, charcoal or navy blue with our SST™ super slide treatment for extended slides.

** Highlighted shapes on the chart to the right are available in SuperLight construction.*

# MINI•LOGO™ BEARINGS

64 set bulk box (512 bearings)

32 set bulk box (256 bearings)

**Mini•Logo Bearings** are skate rated, precision 608 bearings made to Skate One specifications.These bearings were designed for skating, not electric motors.They have a removable rubber shield on one side, a removable metal shield on the other, a high speed molded ball retainer, precision ground and super-finished hardened chromium steel races and balls, and come pre-lubricated with Bones Speed Cream. This makes them smooth, fast, easy to install and maintain. Mini-Logo bearings, twice the performance and half the price you would expect.

# MINI•LOGO™ WHEELS

## S-3 Mini-Logo

# BONES® BEARINGS

## Bones Swiss Ceramics

*Bones Swiss bearings have the best reputation in the skateboard industry, and have had this honor for the past 20 years because of their performance and quality. Everyone who rides Swiss knows how fast they are, and most also comment on how long they last, typically several times as long as low cost bearings. Skaters who use Bones Swiss do so because they want the very best equipment they can get and they know the difference between ordinary and exceptional. Check out our bearing team, it is a who's who of top skaters and we are proud to be associated with each one of them.*
